Provision	Description	House Status	Senate Status
Funding for Organizations Addressing Maternal Health	\$175,000,000 for community-based organizations or other nonprofit organizations operating in areas with high rates of adverse maternal health outcomes or with significant racial or ethnic disparities in maternal health.	Proposed	N/A
Funding to Grow and Diversify the Nursing Workforce in Maternal and Perinatal Health	\$150,000,000 for grants to accredited schools of nursing for the purpose of growing and diversifying the perinatal nursing workforce.	Proposed	N/A
Funding to Grow and Diversify the Maternal Mental Health and Substance Use Disorder Treatment Workforce	\$75,000,000 for grants to health professions schools, academic health centers, state or local governments, territories, Indian tribes, or other appropriate public or private nonprofit entities to establish or expand programs to grow and diversify the maternal mental health and substance use disorder treatment workforce.	Proposed	N/A
Maternal Health Mental Health Equity Grant Programs	\$100,000,000 for medical programs and public health organizations to address maternal mental health conditions.	Proposed	N/A
Maternal Health Risks Associated with Climate Change	\$85,000,000 for medical schools or other provider training programs for identifying and addressing health risks associated with climate change and maternal health.	Proposed	N/A
Grants to Minority Serving Institutions to Study Maternal Health Issues	\$50,000,000 for minority institutions to study maternal health and adverse maternal health outcomes.	Proposed	N/A
Maternal Mortality Review Committees to Promote Representative Community Engagement	\$50,000,000 to promote community engagement in maternal mortality review committees to increase the diversity of membership.	Proposed	N/A
Funding for the Surveillance for Emerging Threats to Mothers and Babies	\$100,000,000 for conducting surveillance for emerging threats to mothers and babies.	Proposed	N/A
Grants to Expand the Use of Technology-enabled Collaborative Learning and Capacity Models for Pregnant and Postpartum Individuals	\$30,000,000 for grants to organizations and medical training facilities that are operating in health professional shortage areas with high rates of adverse maternal health outcomes or significant racial disparities in maternal health to expand the use of tech-enabled collaborative learning.	Proposed	N/A
Grants to Promote Equity in Maternal Health Outcomes Through Digital Tools	\$30,000,000 for grants to organizations and medical training facilities that are operating in health professional shortage areas with high rates of adverse maternal health outcomes or significant racial disparities in maternal health to expand the use of digital tools.	Proposed	N/A
Funding for Antidiscrimination and Bias Training	\$25,000,000 for grants to organizations and medical training facilities for antidiscrimination and bias training for health professionals and staff that interact with patients.	Proposed	N/A
		Taxes	
Provision	Description	House Status	Senate Status
Treatment of Federal Pell Grants for ADIC and Felony Drug Convictions	Effective 2022, excludes the full value of Pell Grant awards from gross income, and for purposes of the American Opportunity Tax Credit, the Lifetime Learning Credit, and exclusion of qualified scholarship from income, qualified tuition and related expenses would not be reduced by any amount paid for the benefit of an individual as a Pell Grant. Repeals the prohibition excluding students convicted of a state or felony drug offense from claiming the American Opportunity Tax Credit.	Proposed	N/A
Excise Tax on Investment Income of Public University Research Infrastructure	Effective 2022, provides a phase out for an institution's investment income excise tax amount by the amount of qualified undergraduate scholarship and grant aid provided by the institution relative to its aggregate undergraduate tuition and fees collected during the taxable year. An institution's tax amount would be reduced proportionately as the amount of its qualified aid exceeds 20 percent of tuition and fees. Institutions seeking a reduction in the excise tax must report average federal student loan debt of: o all first-time, full-time undergraduates awarded a bachelor's degree during the taxable year; o first-time, full-time undergraduates awarded a bachelor's degree during the taxable year who received a Pell Grant; o first-time, full-time undergraduates awarded a bachelor's degree during the taxable year who received federal work-study; and o first-time, full-time undergraduates awarded a bachelor's degree during the taxable year who received federal student loans. The provision clarifies that the 500 tuition-paying student threshold for application of the tax only applies to private institutions with 500 or more tuition-paying undergraduate students. Also, it modifies the threshold of \$200,000 aggregate value of assets per student to index it to inflation.	Proposed	N/A
Advance Refunding Bonds	Reinstates advanced refunding bonds. Allows interest on advance refunding bonds issued by state and local governments to be exempt from tax. This provision applies to advance refunding bonds issued more than 30 days after date of enactment.	Proposed	N/A
Credit to Issuer for Certain Infrastructure Bonds	Provides a 40 percent general business credit for cash contributions made by a taxpayer to a public college or university (or a non-profit organization to which authority has been delegated by the institution to apply) for administering credit amounts on behalf of the institution in connection with a qualifying research infrastructure program. Taxpayers may elect to claim this credit with respect to a qualifying cash contribution in lieu of treating such contribution as a charitable deduction. The amount of cash contributions an institution may designate as qualified cash contributions may not exceed 25% of the credit amount allocated to it under this provision. The Treasury Department certifies institutions have been allocated a credit amount with respect to a qualifying infrastructure project. The provision provides \$500 million of credits for calendar years 2022-26 to be awarded by the Treasury Department on a project application basis. The credits would be awarded based on the extent of expected expansion of an institution's targeted research in STEM disciplines. Institutions with less than 12,000 full-time students are ensured consideration for awards. An institution's allocation may not exceed \$100 million per calendar year.	Proposed	N/A
Credit to Issuer for Certain Infrastructure Bonds	Based on Build America Bonds program enacted in the 2009 American Recovery and Reinvestment Act, issuers of qualified infrastructure bonds would receive a tax credit equal to an applicable percentage of the interest, providing direct financing support for infrastructure investments made by state and local governments. The percentage amount of the credit for interest paid is determined by the year the bond is issued: 2022-2024 – 35 percent; 2025 – 32 percent; 2026 – 30 percent; and 2027 and thereafter – 28 percent. State and local governments may claim the credit for bonds whose interest would otherwise be eligible for tax-exempt status in the Internal Revenue Code, and the entirety of whose net proceeds are used for capital expenditures or the operation and maintenance of capital expenditures. This provision requires that 100% of the proceeds of a bond issued under this provision meet the requirements in the Davis-Bacon Act.	Proposed	N/A
		Public Health	
Provision	Description	House Status	Senate Status
Funding for Medical School Construction	\$1 billion in funding for medical school construction, expansion and training in underserved communities that lack quality access to quality health care.	Proposed	N/A
Funding for Teaching Health Centers	\$6 billion in funding for payments to teaching health centers that operate graduate medical education programs and the award of teaching health center development grants.	Proposed	N/A
Funding for the Nursing Workforce	\$1 billion in funding to support schools of nursing with program enhancement and infrastructure modernization, simultaneously increasing the number of nursing faculty and students, including in underserved areas.	Proposed	N/A
Funding for the Assistant Secretary for Preparedness and Response	\$8,000,000,000 in funding to the Assistant Secretary for Preparedness and Response, to prepare for, and respond to, public health emergencies, including shoring up the Strategic National Stockpile, strengthening our supply chains, supporting domestic and global manufacturing of vaccines, bolstering biosecurity, and investing in therapeutics, among other activities. Incentivizes additional residency training by increasing physician residency training positions to certain applicable hospitals that are recognized by the Accreditation Council for Graduate Medical Education (ACGME) for committing to train physicians with additional requirements, such as increased mentorship, structural and cultural competency training, and training in the community. There are 1,000 slots per year for these residency positions.	Proposed	N/A
Funding for GME Program	This section provides \$3,000,000,000 to establish the Advanced Research Projects Agency for Health (ARPA-H). Funding for ARPA-H seeks to make pivotal investments in breakthrough technologies and broadly applicable platforms, capabilities, resources, and solutions that have the potential to transform important areas of medicine and health that cannot readily be accomplished through traditional biomedical research or commercial activity.	Proposed	N/A
		Education	
Provision	Description	House Status	Senate Status
Increasing the Maximum Federal Pell Grant	Increasing the maximum amount a student is eligible for through the Pell Grant Program by \$500.	Proposed	N/A
